25X1X SOURCE

1. a. The C. BUDEJOVICE (O 49/Q 96) airfield is located about 1 mile south of LITVINOVICE (O 49/Q 96), west of the Vitava river and north of HOMOJE (O 49/Q 85). A cantonment is located on the eastern edge of the field, on the road to C. KRUMLOV (N 49/Q 84). Three hangars arranged in the shape of an open square were seen at the southern edge of the field.

b. An estimated 50 to 60 aircraft of the following types were parked at the field:

(1) single-engine planes with three-bladed propeller, wings set far to the rear, with an antenna extending from cockpit to tail assembly.

(2) twin-engine planes, three-bladed propeller, suspended engines, fixed landing gear.

(3) twin-engine planes, three-bladed propeller, in-line engine, mid-wing monoplane.

All aircraft had a green coat of camouflage paint. One plane was constantly in the air from 9.30 to 10.30 a.m.

[REDACTED] 25X1C

2. Two of the above mentioned single-engine aircraft took off from the field between 3 and 4.30 p.m. Four aircraft, two of which were definitely single-engine planes of the above mentioned type, landed during the same period.

25X1A [REDACTED] Comment: According to available information, the 5th Ftr Regt of the 2d Air Division was assumed to be stationed at the C. BUDEJOVICE airfield. A fighter unit is apparently still located there. The presence of a greater number of twin-engine aircraft was reported for the first time. The types of these aircraft could not be determined from the reported data.

CONFIDENTIAL
